

ENJOY

Time to Relax

After 7 Paralympic medals, Monique Kalkman, the only female athlete with Gold medals in two different sports, relaxes in the Shark. "World class top notch equipment was a crucial factor for success, when I was an athlete. With the Shark and the Neon I don't settle for less in daily life." The 4-times World Champion and Paralympic winner in tennis and table tennis, Monique Kalkman is delighted with her Neon. "It's a little miracle when it comes to folding up," she says. "It's really super when you're travelling, the ideal partner I can always rely on."

Maximum performance and top quality. From professional sport, Quickie develops innovative wheelchair concepts which are also relevant for everyday use or leisure activities. We have combined high tech and performance with smart ideas and intelligent details. A new generation of extremely light, manoeuvrable and mobile wheelchairs is the result – with a brilliant built-in fun dimension!
