Monique Kalkman

Team Sunrise

Monique is hands-down the best female wheelchair tennis player in the world. An outstanding all-around teenage Dutch athlete before a tumor and the resulting surgery left her a partial paraplegic at the age of 14, Monique has an awesome record on the wheelchair tennis circuit. Her mobility on the court combined with her incredible strength and shot precision make her feared by all. "I train as hard as I can, so I will be the most disciplined, fit and all-around player on the court."
